Consent For Chiropractic Exam and Treatment

Jones Chiropractic Clinic

Dr. Jones Dr. Hicks Dr. Carruthers

Patient:_____DOB:_____ PT#: _____ Date: _____

Chiropractic is a health care profession that focuses on disorders of the musculoskeletal system and the nervous system, and the effects of these disorders on general health. The primary treatment provided byDoctors of Chiropractic is spinal manipulative therapy, also referred to as an adjustment. A Doctor of Chiropractic uses his/her hands and/or a mechanical instrument on the patient's body in such a way as to move the patient's joints, This may cause an audible “pop” or “click”, Such as when a person “cracks” his knuckles.The patient may feel a sense of movement as well.

Other procedures commonly used by Doctors of Chiropractic include the following:

- Physical examination- ultrasound therapy- laser therapy- palpation- postural analysis- hot/cold therapy- traction/ decompression- rehabilitation- vital signs- diagnostic studies- electrical muscle stimulations- bracing and support applications- manual therapy- acupuncture/ dry needling

The material risks associated with chiropractic treatment

Chiropractic treatment utilizes very safe, non-invasive procedures performed in chiropractic offices to reduce pain, restore range of motion, and promote overall body wellness, among other carious benefits. As with any healthcare procedure, there are certain complications which may arise during chiropractic manipulation and therapy. Possible complications include but are not limited to the following: muscle strain, dizziness, nausea, slushing, fractures, disc injuries, dislocations, cervical myelopathy, burns, costovertebral strains and separations. It is not uncommon for the patients to experience temporary soreness after the first few treatments. In rare cases, manipulation of the neck has been associated with injuries to the arteries in the neck, leading to or contributing to serious complications, including stroke.

The probability of those risks occurring

Fractures are rare occurrences and generally result from underlying weakness of the bone for which the Doctor of Chiropractic checks during the taking of the patient's history, and during the examination and x-ray. The incidences of stroke are exceedingly rare and are estimated to accrue between one in one million and one in five million cervical adjustments. The other complications are also generally described as rare.

The availability and nature of other treatment options may include the following

There are risks and benefits associated with all the above treatment options, which the patient may wish to discuss with his/her medical doctor.

- Self-administered, over-the-counter analgesics and rest
- Medical care and prescription drugs such as anti-inflammatories, muscle relaxants, and pain killer
- Hospitalization/ surgery

Remaining untreated may allow the formation of adhesions and reduce mobility, which may set up a pain reaction further reducing mobility. Failure to seek care could result in serious medical conditions going unrecognized. Over time, this process may complicate treatment, making it more difficult and less effective the longer it is postponed.

Financial Agreement

1. All Patients are on a cash basis until their insurance coverage may be verified.
2. Waiting for the insurance to pay is a courtesy and it can be withdrawn under any circumstance.
3. As a patient, it is your responsibility to take care of the co- pay and any non- coverage service on a weekly basis. Other arrangements can be made.
4. This office does not warrant or guarantee that your insurance will pay. Nor does this office promise that your insurance will or should pay the fees charged. Insurance policies are an arrangement between the insured and the insurance company.
5. This office will resubmit a claim one time. This office will NOT enter into a dispute with your insurance company. If coverage problems arise, you will be expected to contact your insurance company, adjustor, or agent. Any denied or disputed claims will be treated as non- covered services and you will be expected to pay such charges in a timely manner.
6. Any refunds that are due to you will be issued once your insurance company makes complete payments.
7. If you receive any correspondences or checks from your insurance company, you agree to bring these into our office so that we may determine if any action needs to be taken.
8. If your account is sent to a collection agency, you agree to pay the collection fee of 33.3% in addition to your outstanding balance owed to Jones Chiropractic Clinic.
9. There is a $25.00 return check fee.

I have read and I understand the above financial policy. I agree and will abide by these terms.
